Passionate About Mentorship

Sharing years of experience, lessons learned, & unique technical skills training sessions to ease the learning curve of modern-day business, giving students a head start on their future careers

Building Talent Networks

Establishing a forum for students to connect with talented peers and professionals who have common interests. Students grow together in real world training scenarios and build their professional networks early-on through AESOP

Expert Advice

Trained professionals and industry leaders participate as guest speakers and instructors who provide their guidance, constructive feedback, and industry insights gained from years of experience

Stronger Performance

Advanced professional skills will enable students to efficiently close out tasks from day 1 and exceed expectations taking their career to the next level early on. Stronger performance results in high ratings...leading to faster position offers and promotions

OBJECTIVE

Providing a professional development learning community for students

OBJECTIVE

Empowering students to become comfortable and confident in their professional abilities

Data Analytics Workshop Prepares Fords for the Future
 by Allison Wise '20 | Feb 25, 2019 | 0 comments

Helped your career? Who should consider going for an MBA vs continuing to explore new work opportunities?

New Summer Skills Accelerator Launches

2 MINUTE READ

from Haverford Magazine: Spring/Summer 2020 by haverfordeda

Each year the Center for Career and Professional Advising (CCPA) helps hundreds of Fords find and apply for summer jobs and internships. But with the COVID-19 pandemic making travel difficult and in-person work experience unpredictable, the Center leaped into action to create new programming to support students and broaden their skills.

PROGRAM STRUCTURE

A balance of industry knowledge, real-world exercises, & group activities

Industry Context

Programs are initiated with key industry concepts to understand "why this skill is important" and how it is used

Key Concept Overviews

Industry Professionals as Guest Speakers

Takeaway Career Materials & Guidebooks

Skills Training & Tutorials

Students build new skills through live tutorials, practice exercises and problem sets with frequent team-based work to develop soft skills

✓ Technical Skills Tutorials & Exercises

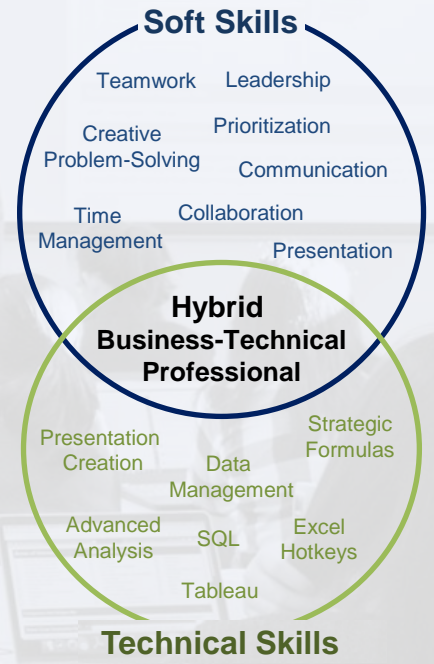

✓ Engaging Instructors & Skills Coaches

✓ Practice Problem Sets

✓ Balanced Learning Curve and Pace

Professional Development

AESOP workshops are opportunities for students to apply their 'hybrid' skillsets in real-world scenarios where they learn how to become problem-solving professionals

STUDENT EXPERIENCE

Programs are **designed for the students**. Years of their reviews and learning feedback have **shaped the sessions of today**

AESOP
A C A D E M Y

Students **'Likely'** to recommend the course

- “I highly recommend the program to any student, regardless of their background or current skill set.”
- “This is a great class and I'm very grateful for the time and effort. I hope it gradually grows bigger and better.”
- “AESOP Academy is a must for any ambitious student pursuing a career in finance or consulting.”
- “AESOP Academy is a great way to learn these crucial skills to separate yourself in a competitive job market.”

Students found the training experience as **'Relevant'**

- “The Aesop training program had everything I needed. From a thorough overview of networking and interview preparation to developing skills in analytics and delivery.”
- “This was the most relevant project/course/experience I have had given my interests in consulting.”
- “I've found myself using the skills I learned in the program throughout all facets of life”
- “You learn all the things you need to know to do well in a good firm. Everyone requires Excel now and its best to learn them at Aesop, because it's been taught so well.”

Students view the overall training as **'worth their time'**

- “I attribute much of my professional success this summer to my time with Aesop”
- “This program definitely helped me grow and develop my technical and behavioral skills along with my industry knowledge”
- “Aesop training program really helped me show my interviewers that not only was I a cultural fit, but also in tune with the software and industry knowledge used in their day to day work.”
- “I was able to use the things I learned in Aesop workshop during my interviews to show familiarity with Excel, and how I was already more familiar with Excel than other candidates which I think gave me an edge during interviewing”

Instructor Expertise as **'Excellent'** and **'Very Engaging'**

- “The instructors both offered incredibly helpful career insights as experienced professionals.”
- “Instructors do an awesome job of presenting complex materials and skills in easily digestible lessons”
- “The instructors and their assistants demonstrated superior dedication to students”
- “I would highly recommend this program to my friends! Instructors and mentors were amazing. This was a really rewarding and great learning experience!”

STUDENT EXPERIENCE

Creating **lasting experiences** that fulfill a student's technical and professional aspirations

“

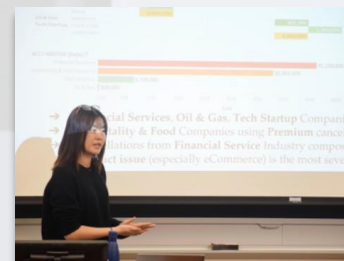

Panos devoted hours of his spare time to ensure that students, like myself, who attend liberal arts institutions are equipped with the business skills necessary to thrive in the corporate world. I effectively became a consultant overnight and I wouldn't have done it so seamlessly without Panos' guidance. He **instilled confidence** in myself and **in my abilities** that I absolutely needed, and for that, I cannot thank him enough.

Qwajarik Sims, Haverford College

”

“

This course **empowered me** with useful business analytical techniques, refined my presentation and public speaking skills, and offered me great opportunities to network with professionals and fellow students. Moreover, I particularly appreciate the way that Panos and his team taught the class. Learning Excel and Tableau techniques in the context of mock business scenarios effectively prompted us to think like actual analysts who are utilizing technical skills to solve real business problems.

Iris Xu, Haverford College

”

“

Aesop Academy is the **best workshop I have attended so far**. It addressed the technical skills that I have been wishing for. The content is so well organized such that I wasn't overwhelmed by the material yet very comprehensive. Thank you so much for bringing in well-rounded speakers who addressed both careers and real life. I learned a lot and was inspired by the speakers and my classmates. Like I said on LinkedIn "I couldn't have spent my fall break any better".

Lyncy Nyandoche, Bryn Mawr College

”

Aesop's intensive workshops manage to equip you with the **soft and hard skills you need to be a more competitive applicant in** today's market. During all my internship interviews this season I **felt confident** while talking about my knowledge on SQL or Tableau.

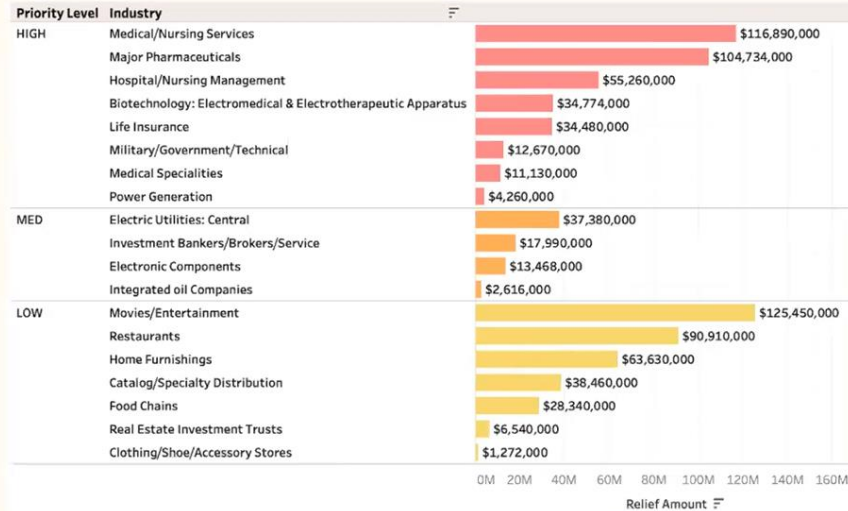

Zainab Saeed, Bryn Mawr College

”

Relief Amount by Industry Sector

- High priority industries are COVID-related industries, and they will be considered in priority for funding.
- Low priority industries requires the highest relief amount, especially for Movies/Entertainment & Restaurants.

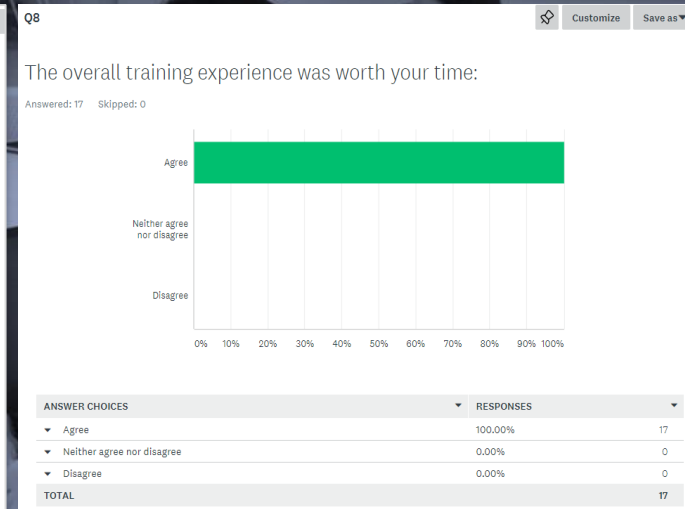

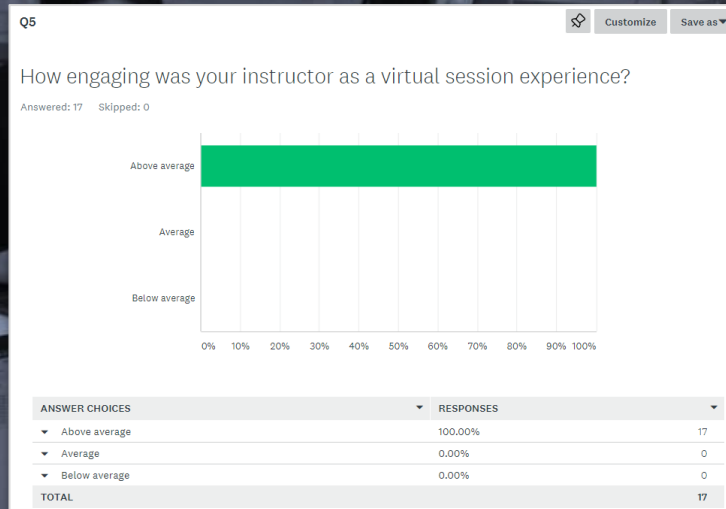

STUDENT EXPERIENCE

All workshops are designed based on real world scenarios to better prepare students with **practical** and **transferrable skills**

“AESOP workshops were a huge part of my success in my interviews and my applications. I was able to use examples from my experiences with AESOP to help answer many of the behavioral based interview questions I was asked. I really learned so much and I know what I learned will be so helpful to me this summer. The environment throughout the course was incredibly welcoming and I feel ready to tackle some real-world problems now!”

Ryan Kredell | Haverford College
AESOP Data Analytics Specialist Workshop, Jan 2021

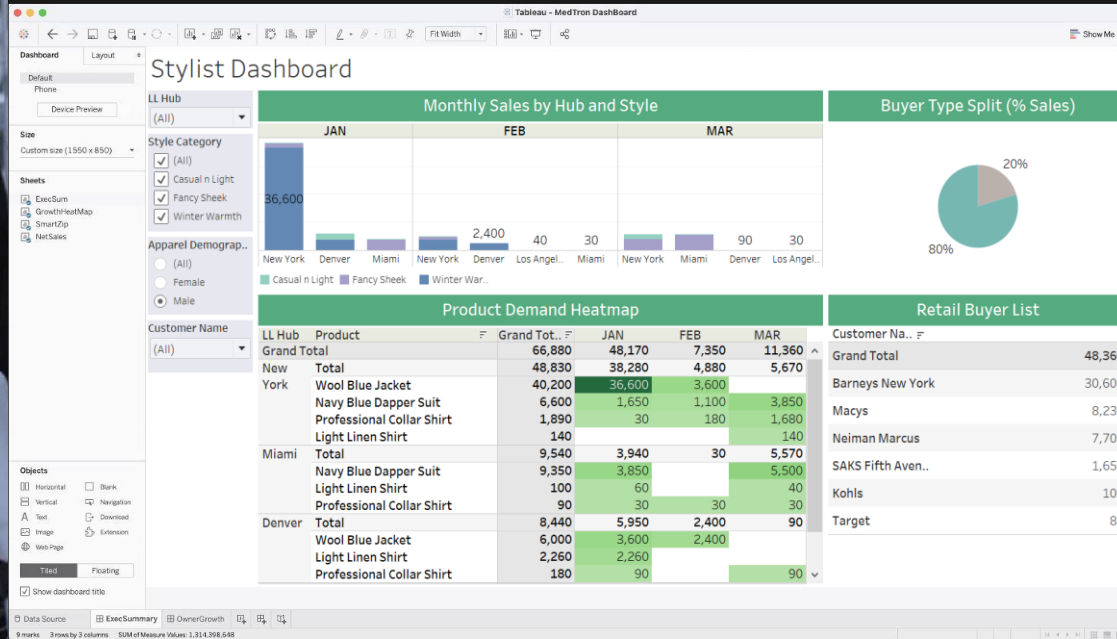

STUDENT EXPERIENCE
 Students regularly return to sessions to build up resume-worthy training accomplishments that stand out to hiring managers

Abigail McFarland <amcfar11@swarthmore.edu> to me

Sat, Feb 13, 6:50 PM

“The skills I learned in the Data Analytics Program were one of the main reasons I was able to secure a technology associate position before graduation despite having no formal experience as a technology analyst. Looking forward to the Data Wrangling program.”

Abigail McFarland, Swarthmore 2021 Economics graduate to a **Wells Fargo Technology Associate**

STUDENT EXPERIENCE

Problem-solving, technical upskilling, and critical thinking groom students from junior analysts to talented advisors in just a few days

Nelson Dufitimana
to me

Fri, Mar 12, 10:13 AM (4 days ago) ☆ ↶

"Yesterday was amazing. Personally, I learn by doing, so attending yesterday's session, was a good refresher for the skills I had learned during the Data Analytics Session. Although these Data Wrangling sessions are new, they are very helpful especially for students who do not yet have internships for the summer but still need to hone their Data Analytics skills. Personally, when I am considering attending any session with AESOP, I remind myself that there is always something to learn when it comes to working with Data and that always proves right. Thank you, Panos, for allocating time to empower the "future talents!" "

Nelson Dufitimana, Swarthmore 2024 CS and Economics

STUDENT EXPERIENCE

Challenging client simulations keeps students engaged, excited, and intrigued to learn advanced skills while having fun!

Students learn a diversity of in-demand industry skills to become technically versatile in this digital age – ranging from MySQL (data extraction) to data analytics with Tableau and Excel. Soft skills exercises are also incorporated throughout the programs to ensure that students shape into well rounded hybrid business-tech professionals ready for the real world!

STUDENT EXPERIENCE

AESOP workshops offer a diversity of career tracks to provide students with an opportunity to engage in different functions, and build a knowledge-base to launch their career pursuits of interest

Kelvin Darfour <kdarfou1@swarthmore.edu>

Sat, Feb 20, 4:14 PM

to me

Hey Panos,

I really enjoyed our sessions today. It an amazing session. I loved the opportunity to work with other like minded students in breakout rooms to solve problems. And it always amazes me the kind of conversations we have with each other and the connections we build after these sessions. I am encouraged to learn more and develop myself better through the workshops you organise. I have already signed up for the next training sessions and you will be seeing me more often during these workshops!

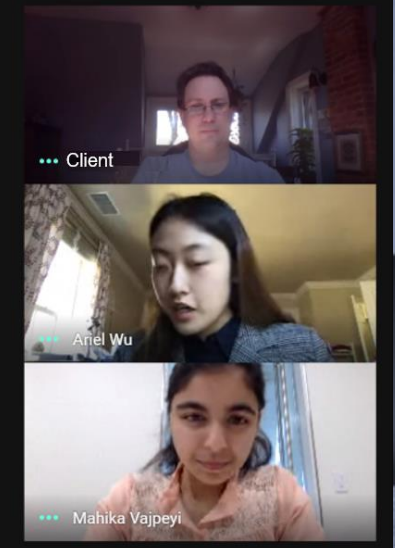

Regards,
Kelvin.

STUDENT EXPERIENCE

Group presentations give students opportunities to build communication skills, showcase their work and develop as rising leaders ready to work in teams in complex assignments

Mahika Vajpeyi
Economics and Computer Science Student
October 20, 2019, Mahika reported directly to Panos

Participation in AESOP Academy's Business Analyst program has been one of my most enjoyable learning experiences at Bryn Mawr. Under Panos' mentorship, I learned advanced data analysis skills and also honed my organizational and presentation skills. I gained experience collaborating with peers to solve real-world business cases under tight deadlines and presenting to industry experts. Panos is very engaging and his encouragement and patience accelerated my learning. Above all, he provided valuable career advice and helped me develop confidence in my abilities. I can't thank him enough for his guidance and look forward to participating in more programs with the Academy. [See less](#)

Hi Panos. Hope all is well! I participated in your professional skills intensive in Oct. 2019 when I was a senior Cities major at BMC and recently accepted a job as a research associate at a real estate consulting firm in Chicago. Having advanced Excel skills enabled me to get my foot in the door, differentiate myself from other candidates, and ultimately become their preferred candidate. It also allowed me to spend more time during the interviews on what I brought to the firm as an individual and less on my capacity to learn skills, which was surprisingly liberating. Thank you for everything you do with AESOP Academy in the Bi-Co and providing students with opportunities to gain the technical skills needed to launch their careers. It makes a huge impact in our lives.

STUDENT EXPERIENCE

AESOP **directly impacts** student employment odds and positions them to be the **'standout' performers** early on in their careers

AESOP
ACADEMY

“AESOP played a huge role in helping me secure the internship and become a successful intern.

As an intern, I worked on various projects including a data literacy project, several team presentations, and a stock pitch with an options pricing to it. I didn't struggle with Excel and PowerPoint because I was already familiar with cleaning data, using hotkeys and excel formulas to select stocks based on certain criteria, assessing risks on a portfolio, and presenting key findings.

AESOP helped fill gaps that my Math and Econ classes did not. Thank you for organizing AESOP sessions within the Bi-Co.

I received a return offer and **will be joining Bank of America** in July as a full-time analyst!”

EDITH L JEPKIRUI, '21, Bank of America

I am grateful that Aesop Academy brought the Business Analyst Training Program to Haverford. Over the course of the program, I further **developed both my "soft" skills** such as networking skills, and **"hard" skills** like Excel and presentation development skills. The instructors offered **incredibly helpful career insights** as experienced consultants. I have to say my favorite part of the course was the **hands-on final project**. It gave me a sense of what I would actually be doing if I were to become a consultant and it allowed me to develop my teamwork skills.
